# INDOOR TEAM BUILDING

**Maybe you want to improve communication** between team members, build trust, energise and stimulate your team. Whatever your objective, our indoor team challenges have been designed to be purposeful, fun, and most of all, convey important messages.

## **Team building is used to:**

**Improve** team dynamics, productivity, time management, problem solving, planning, collaboration, communication, increased creativity and flexible thinking

**Identify** skills, abilities, weaknesses and establish goals

# CREATE & PAINT

**The challenge** is to set individuals the task of developing and combining their artistic and creative skills throughout their teams to produce a piece of quality art work. The overall picture created can also be used as a tool to convey or enforce a company message, corporate logo or business goal.

**Sushi Workshop** after a short master class in this fascinating cookery technique, it's over to the teams to invent their versions of these fascinating oriental dishes.

# MOVIE MAKING

**Turn your teams into full film production units.** Our crew of instructors will give the group an insight into all areas of producing a short movie from script writing and acting techniques, props and costume choice, camera and sound work. The movies are then screened live at an exciting spoof awards ceremony.

## COCKTAIL MAKING

**Be prepared for some serious fun** while you learn how to mix the perfect cocktail and serve in style. Our team of expert cocktail barmen will help you mix, taste and present some of the world's most exotic and delicious drinks.

## WINE TASTING

**A light-hearted approach to the art of wine tasting** with an introduction on sensory exploration. Everybody then has a go at swirling, sniffing and slurping wines and trying to match the bag numbers with the correct descriptions.

## BEER TASTING

**Get the chance to discover what makes the perfect pint** whilst sampling a wonderful range of Britain's intriguing micro brewery beers on this informatively fun corporate beer tasting experience.

# SCALING THE HEIGHTS

**Based around a computer network system**, teams have to solve brain teasers to unlock information on their designated computer. The information gains the team points which can be exchanged for coloured building blocks. To be successful teams need to understand the task ahead of them and plan and organise in order to get the task done in the most effective manner.
